New Hairdressing Classroom

The Institutes' *College of Hairdressing* faculty has been expanded to provide additional classroom spaces for students. The new room located on the ground floor of our current Hairdressing facility, is currently under construction and is due to open mid February 2009. The room will provide a

spacious teaching and learning environment with all necessary hairdressing education equipment provided. Including salon professional wash stations, colour and cutting areas.

The classroom, being on street level will also serve as an integral component of our hairdressing clinic days. We anticipate increased clientele for our Hairdressing salon sessions, thereby providing a wider range of practical experiences for our hairdressing students.

If you are interested in

being a model for our students for their practical sessions, wish to make an appointment time for any of our professional salon services or to ask any questions simply give us a quick call on our direct clinic line on salon days or our clinic bookings:

 07 3394 1311 or

 07 3394 3816

Open Day Sunday 1st February 12 noon til 2pm
